

Aho Reunion

July 1-3 2005

The Aho farm was established in 1893. The three day reunion was attended by 650-700 members of the Aho family.

The reunion took place at the Aho house, the Wolf Lake ball part and the church was filled to overflowing on Sunday morning. There was much sharing of memories and getting acquainted with relatives from other parts of the country

Many committees had worked hard to prepare for the reunion. Various books on family history and genealogy were available.

Each member of the family made a cement square stepping stone to be placed around the Aho house. At left they are being made.
